POPULATION AND DWELLINGS - LOCAL GOVERNMENT AREAS

SOUTH AUSTRALIA

30TH JUNE 1962

This bulletin shows the area, number of private dwellings, and population, in each Local Government Area and Statistical Division in South Australia at the Census of 30th June 1961 with estimates at 30th June 1962.

Private dwellings consist mainly of private houses, shares of private houses, flats, apartments, etc., and include both occupied and unoccupied dwellings. Hostels, boarding houses, hotels, and hospitals and other institutions, have been excluded.

The June 1962 estimates of private dwellings have been derived from June 1961 Census results and from the latest available information on completion of new dwellings, demolition of houses, and conversion of houses into business premises, from 1st July 1961 to 30th June 1962. Small holiday houses built since the 1961 Census are excluded.

The estimate of State population at June 1962 is based on Census population plus natural increase and recorded net migration. Changes in the estimated populations of Local Government Areas are based mainly on changes in the recorded numbers of private dwellings and changes in occupancy of major hostels, camps, etc. Particulars of the demolition and conversion of dwellings and of interstate movement of population are incomplete, and estimates of both population and dwellings are subject to amendment as more definite information becomes available.

Estimated populations have been rounded to the nearest hundred persons for metropolitan municipalities and to the nearest fifty persons for all other Local Government Areas. In all Local Government Areas estimated numbers of private dwellings have been rounded to the nearest ten.

ESTIMATES FOR INDIVIDUAL LOCAL GOVERNMENT AREAS SHOULD BE REGARDED AS PROVIDING A GENERAL GUIDE ONLY.

It is estimated that from 30th June 1961 to 30th June 1962 the State population increased by 20,049 persons (2.07 per cent).

The population of the Metropolitan Area is estimated to have increased by 5,500 persons. Greatest estimated changes in the various metropolitan municipalities were increases of 1,900 persons in Campbelltown, 1,700 in Enfield, 1,200 in Marion, and 700 in Mitcham, and decreases of 900 in Adelaide and 500 in Woodville, the decrease in Woodville being caused mainly by movement of hostel population.

Population of the near metropolitan area shows continuing rapid growth. There was an estimated increase of 6,650 persons in Salisbury (including an increase of 3,700 in the population of Elizabeth) and estimated increases of 2,300 in Tea Tree Gully and 1,100 in Noarlunga.

In other country areas greatest changes recorded were an increase of 1,950 persons in Whyalla, concurrently with expanding industrial activity, and an increase of 550 persons in the municipality of Mount Gambier.

Minor changes of 100 or less shown in the figures for several municipalities are mainly the result of "rounding" to the nearest 50 persons.
